

BUTTERFLY VALVE DIAPHRAGM CARBURETORS

WA, WT, WTA, WTE, WTEA

The WA/WT series includes our smallest diaphragm carburetors, designed for engines from 14 to 50 cc. Meets all CARB and EPA regulations.

- Proper function in any attitude
- Metering system and fuel pump integrated in the carburetor casting
- Adjustable high speed needles, idle needles and available idle adjust screw
- Can be delivered with or without choke
- Available extras: accelerator system, fast idle system, speed governor, primer-purge system, idle shutoff system, easy starting systems
- Mirror image arrangement- models WTA, WTEA
- Tamper-resistant options available

HD, HDA

The HD series represents our medium size carburetors. They are designed for engines from 30 to 60 cc displacement. Meets all CARB and EPA regulations.

- Proper function in any attitude
- Metering system and fuel pump integrated in the carburetor casting
- Adjustable high speed needles, idle needles and available idle adjust screw
- Can be delivered with or without choke
- Available extras: accelerator system, fast idle system, speed governor, idle shutoff system, easy starting system
- Mirror image arrangement – model HDA
- Tamper-resistant options available

WJ

The carburetors of the WJ series have been designed for professional applications, especially for chain saws from 50 to 100 cc displacement. Meets all CARB and EPA regulations.

- Proper function in any attitude
- Metering system and fuel pump integrated in the carburetor casting
- Adjustable high speed needles, idle needles and available idle adjust screw
- Can be delivered with or without choke
- Available extras: speed governor, fast idle system, easy starting system
- Tamper-resistant options available

WALBRO BUTTERFLY VALVE DIAPHRAGM CARBURETORS

WG

The carburetors of the WG series are designed for professional chain saws of 100 cc displacement or larger. Meets all CARB and EPA regulations.

- Proper function in any attitude
- Metering system and fuel pump integrated in the carburetor casting
- Adjustable high speed needles, idle needles and available idle adjust screw
- Can be delivered with or without choke
- Available extras: speed governor, accelerator system, fast idle system, air purge system, easy starting system
- Tamper-resistant options available

WB

The WB series was originally designed for kart engines and is suitable for engines from 100 to 150 cc displacement and more. It is now used on a variety of engines. Meets all CARB and EPA regulations.

- Proper function in any attitude
- Metering system and fuel pump integrated in the carburetor casting
- Adjustable high speed needles, idle needles and available idle adjust screw
- Choke available
- Available extras: speed governor, easy starting system
- Tamper-resistant options available
