

FUEL SUPPLY MODULES

Walbro Fuel Supply Modules are custom-designed for the inboard and outboard marine industry as a key assembly in Electronic fuel injection (EFI) systems.

Features:

- Fuel pump output and current draw based on design requirements
- Single or dual fuel pump options
- Pressure regulators with set point options
- Return or returnless systems available
- Water separating filter options
- Low permeation body and seal material options
- Optional water cooling feature available to reduce fuel temperature
